

Marvel Crisis Protocol: Token Reference

LAST UPDATED: AUGUST 17, 2022
UPDATED ADDED BLACK BIFROST

Notes:

- This is a project that I have started because the previous Token Reference has not been updated in over a year (As of the creation of this document)
 - I have taken a lot of inspiration and the format from the original document but added my preferred layout
- **The Character/Tactics Token Section** has the name of the token and what character/tactic card that corresponds with the token in Brackets
- **I have decided to keep the tokens on the list that associate with the Banned List cards.** This way it is there in case you want to play anyways or the cards come off of the Banned List, you can do so. I have highlighted the Name and token in these sections red.
- **The Ultimate Encounters/Organized Play Section** has all of the tokens that will be used in that scenario. Some of the tokens are not included with the Kit and will need to be used either gathered from another set of tokens or must be proxied.
- I will only be able to update tokens as I receive the physical components. I should get most tokens up within a week or two of release in my area. I take the photos myself with my camera as I do not want to be told I am taking credit for someone else's photos.
 - **For the Ultimate Encounters/Organized Play Kits**, they will be updated less frequently. When I can update them, will be based on when I can get the materials and when my local area holds the events. This may take a couple months depending on when I can make it out to the events.
-

General Use Tokens			
	Priority		Round Tracker
	Victory Point Trackers		Captain America's Shield
	Power 1/3		Damage 1/3/5
